CHOICE BULBS of SPECIAL MERIT

Border of Trumpet Narcissi or Daffodils. See pages 10 and 11

THE BULBS OF HOLLAND

Dutch Bulbs are well known the whole world over. They brighten the homes of many countries during the dreary Winter months and herald the coming Spring with their gay colors and sweet perfumes.

Nowhere in the world will bulbs thrive and flower so exceedingly well as under the minute care of the able growers of the provinces of North and South Holland. Yet, originally, the bulbs were brought to Holland from far countries, but behind the narrow ridge of North Sea dunes they felt so much at home, that we can speak of Holland as their second home. It may be true that here and there some varieties of Tulips, Narcissi, and other bulbous plants may have been grown, but never so successfully as in Holland.

The United States Government has decreed that the importation of Narcissi Bulbs will be prohibited, the purpose no doubt being to encourage production in this country. While commending the spirit behind this resolution, we have grave fears that many years will pass before production in this country will be such as to enable the offering in commercial quantities at reasonable prices of these beautiful flowering bulbs. We therefore urgently advise the placing of orders now for delivery this Autumn. Narcissi bulbs are splendid for naturalizing, multiplying with the years.

Comparison of our prices with those of other offerings is earnestly invited, remembering that all bulbs which we offer in this catalog are first grade, top size, only the cream of Holland's most choice sorts.

Positively no discounts or lower prices than those here given can be allowed. We have quoted the lowest possible prices consistent with the high quality we handle. The grade of bulbs which we supply must not be compared with such as are offered in bargain sales, cut price offerings, or at large, attractive discounts. *Beware of cheap bulbs, for that is what they are.* Pay a reasonable price and get the best. Results count.

SPECIAL NOTICE.—To secure delivery of the choice and rare varieties listed, orders should reach us not later than August 15th. Orders reaching us later than August 15th will be subject to an increase of 25% in price on all bulbs listed.

DIETZ & TRIVETT CO.

CHOICE DARWIN TULIPS

Those marked (*) are good for forcing and also for outdoor planting.

	Doz.	100		Doz.	100

Note.—Many of the Above Rare and Choice Sorts Can Only Be Delivered on Orders Placed with Us Not Later Than August 15th. A 25% Increase in All Prices Will Apply to Orders Placed After August 15th.

Choice Darwin Tulips

Undoubtedly the most popular of all Tulips, producing beautiful flowers of rich colors and shades, on long, graceful stems which rock to and fro on the soft breeze. Ideal for beds or borders, or planted between and in front of shrubs and evergreens. Also splendid for naturalizing.

On the page opposite we offer an extensive list (95 varieties) including the best standard sorts and many of the finest new creations for exhibition.

Please note our special mixtures.

Your Order for Bulbs

YOU take a price list or catalog, make your choice of the varieties wanted, and you are ready. However, it is not so simple. If you desire to obtain the best possible results it is essential to select only top-size quality of bulbs.

Flowering bulbs are graded in Holland, usually as No. 1, No. 2, No. 3, and Top-Size.

The first named is planting stock to be grown into commercial size; the second are offered to those considering price as the only objective. No. 3 is the size usually supplied to the seed and florist trade, and lastly the Top-Size, *the cream of the crop*, demanded by and supplied to the most critical seed trade. For this, the reliable firms catering to a special line of customers, gladly pay a premium over the wholesale prices.

We offer to a most particular clientele, Top-Size Bulbs only, at moderate prices.

The amount you will expend on such bulbs may be slightly higher, but you will certainly avoid unnecessary disappointment, and if you intend to force the bulbs this will be absolutely essential.

The stronger the bulbs, the greater the quantity of nourishment reserved, and consequently, the better and more perfectly they will produce their flowers. Knowing this, the absurdity of buying so-called cheap bulbs through ridiculously low-priced advertisements will be clear to everyone.

Order your bulbs from a reliable firm—from one who will execute your order with the utmost care. We reiterate, be not afraid to pay a slightly higher price, knowing that only the best quality bulbs will give you full satisfaction.

SPECIAL NOTICE

It will be impossible to supply many of the choice varieties offered in this catalog unless orders are placed with us not later than August 15th.

All prices for bulbs in this catalog will be subject to an increase of 25% on orders received after August 15th.

Note.—For the Thousand Price, Multiply the Hundred Price by Nine. This Refers to Any One Variety, Not the Total Amount of a Collection of Varieties. We Supply Six of Any One Variety at the Dozen Price, 25 of Any One Variety at the Hundred Rate, and 250 of Any One Variety at the Thousand Rate Price.

Beds of our Breeder and Cottage Tulips flowering on the estate of J. C. Penney, Esq., Mr. V. Strobel, Supt.

Breeder, or old Dutch Cottage Tulips are perhaps the most valued of all. For, while the Darwins with their beautiful, glittering colors are children of the modern time, the Breeders awake in us reminiscences of days long ago. They hide their glowing colors behind a mysterious, hazy veil, as if afraid to show fully their stately loveliness, especially the bronze shades which you will seek in vain in any other race of Tulip. One cannot fail to appreciate the deep purple of "Bacchus," resembling a large, blue Plum, and not less striking are Louis XIV, James Watt, Bronze Queen, Lucifer, etc.

Beds of our Named Rembrandt Tulips, flowering on the estate of General H. S. Borden, Mr. P. Hicks, Supt.

Rembrandt Tulips (see list, page 8) are again coming into favor. During the Seventeenth Century these gorgeous flowers were much in vogue with the Parisian beauties who wore them as precious gems. The blossoms of this type of Tulip are splashed and feathered with beautiful color combinations. At an auction at Alkmaar, Holland, in February, 1637, 120 bulbs were sold for 90,000 guilders. During this period the growers handled them as precious stones and negotiated them at troy weight on a gold scale. Their beauty shows to most advantage when planted in groups of 25 or 50 of one variety in the lawn.

Single Early Tulips

Those marked (*) are good for forcing and also for outdoor planting.

Note.—The letters (A), (B), (C) after varieties indicate time of blooming, (A) being the earliest, (B) second early and (C) last to flower; thus all marked (A) will bloom about same time; however, there is not more than several days or a week of difference between any of them.

	Doz.	100
ARTUS, 10 in. (A). A very good red.	\$0.40	\$3.25
AUGUSTA, 10 in. (B). Fine rose.	.60	4.50

English Cottage Tulips, "Inglescombe Yellow"

Cottage Tulips are a race of exceeding beauty. Some resemble Darwins, others have long, egg-shaped flowers or gracefully pointed petals. It is this type that supplies the pure yellows for the May flowering group of Tulips.

Double Early Tulips

	Doz.	100

CHOICE MIXTURE OF ALL COLORS.....	.50	3.25
SECOND MIXTURE, ALL COLORS.....	.35	2.50

Early Single Tulips, "Royal White"

The early Single Flowering Tulip is valuable for bedding or forcing, being the first to flower (April). The color range is very extensive, including Pure White, Yellow, Scarlet, Red, Orange, Purple, differing from other types in that the colors are solid and clear selfs and very bright. Note the Duc Van Thol type (see opposite page) growing only 8 inches in height, they are splendid for forcing in pans

Early Double Tulips, *Boule de Neige*, white; *Couronne d'Or*, yellow, and *Vuurbaak*, scarlet-red

A very useful form of early Tulip (April flowering). Colors and habit similar to the Single Early Flowering. The blossoms are very double, resembling Roses, and owing to their greater substance will last longer and withstand rain and wind better than the single sorts.

Rembrandt Tulips

	Doz.	100
APOLLO. Rosy-violet and white.....	\$0.90	\$6.00
BUTTERFLY. Soft lilac, with carmine stripes...	.75	5.00
FANTASY. Lilac striped and splashed.....	.90	6.00
HEBE. Lilac-white, splashed brown.....	.90	6.00
PROCLES. Violet and white.....	.95	7.00
